DETAILED ACTION

In view of the Appeal Brief filed on January 09, 2007, PROSECUTION IS HEREBY REOPENED. A new ground of rejection is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below:

Response to Arguments

Two telephone calls and messages were left to the Applicant's Representative, Robert Popa (Reg. No. 43,010) on April 23, 2007 and April 24, 2007 to request an authorization for Examiner's Amendment. The Examiner, however, did not receive any return messages from the Applicant's Representative. Therefore, this Office Action is issued to address matters that could possibly resolved on the telephone and place the present application in condition for allowance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Regarding claims 1-7, 9-22, and 24-30, the phrase "likely to be holding" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

The Examiner notes that "*likely to be holding*" could render the claim indefinite because the mobile device is not necessary holding any data item. More importantly, the Applicant's specification does not specify how "likely" to consider that the mobile device is likely to be holding the data item (i.e., based on time, distance, etc.)

Allowable Subject Matter

Claims 1-7, 9-22, and 24-30 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
